User Manual
DAHUA 8019 Gimbal Mount

1. Introduction

Thank you for purchasing the DAHUA 8019 Gimbal Mount. This device has been designed to provide a reliable and flexible solution for the installation of bullet cameras and protective housings. Made from high-quality aluminum alloy, the mount is capable of supporting up to 10 kg, offering robustness and versatility in various video surveillance applications.

2. Package Contents

1. DAHUA 8019 gimbal mount.
2. Mounting screws (x4).
3. User manual.
4. Allen key (if applicable).

3. Specifications

Material: Aluminum alloy. **Maximum supported weight:**10 kg.
Compatibility: Designed for bullet cameras and protective housings.
Flexibility: Highly adjustable mounting adapter for custom angles.
Color: White or anodized aluminum (depending on model).

4. Prerequisites for Installation

1. Necessary tools:
- Drill.
- Drill bit suitable for the surface.
- Screwdriver.
- Bubble level.

2. Location:
- Make sure the mounting surface is flat, sturdy and capable of supporting the combined weight of the mount and camera.

3. Security:
- Disconnect any nearby power source during installation.

5. Installation Instructions

1. Selecting the Mounting Location:

- Determine the ideal location to install the camera, considering the desired coverage area and proximity to a power source.

2. Fixing the Support:

- Mark the drilling points using the base of the bracket as a guide.
- Drill the marked holes and secure the bracket using the screws provided.

3. Camera Mounting:

- Place the camera or protective case on the mount.
- Adjust the mounting adapter to orient the camera at the desired angle.
- Make sure all connections are tight.

4. Final Adjustment:

- Check that the mount is firmly attached and that the camera is oriented correctly.

- Use the bubble level to ensure a straight installation.

6. Maintenance

1. Cleaning:

- Clean the stand with a soft, dry cloth. Do not use abrasive chemicals.

2. Periodic Review:

- Periodically check the tightness of the screws and the general condition of the support.

7. Safety Precautions

- Do not exceed the maximum recommended weight of 10 kg.
- Make sure the mount is properly installed before mounting any device.

- Do not install the stand on unstable or fragile surfaces.
- Keep the stand out of the reach of children.
