User Manual: Dahua Monitor Stand

1. Introduction

The Dahua stand is designed to provide a robust and efficient solution for installing 55-inch monitors. Its structure allows easy floor mounting and rear access for maintenance tasks. This stand is compatible with Dahua monitors, ensuring optimal and secure integration.

---

2. Technical Specifications

- **Dimensions:** Refer to the technical diagram.
- **Material:** Durable steel with an anti-corrosion coating.
- **Load Capacity:** Specifically designed for Dahua monitors.
- **Compatibility:** Compatible with Dahua monitors.
- **Mounting Type:** Floor, with rear access for maintenance.

---

3. Installation Instructions

Required Tools:

- Wrench.
- Screwdriver (Phillips and flathead).
- Bubble level.
- Drill (if floor anchoring is necessary).

Steps:

1. **Prepare the area:** Ensure the installation space is clean and level.
2. **Assemble the base:**
    - Assemble the base using the included screws and washers.
    - Verify that the structure is stable.
3. **Attach the monitor:**

    - Ensure the monitor is compatible with the stand.
    - With assistance, mount the monitor onto the stand and secure it using the brackets and safety screws.
4. **Final adjustments:**
    - Use a bubble level to confirm the monitor is properly aligned.
    - Tighten all screws to ensure stability.

---

4. Maintenance and Safety

- Regularly clean the stand with a dry cloth to prevent dust and dirt buildup.
- Periodically inspect screws and fittings to ensure they remain secure.
- Avoid overloading the stand with incompatible or heavier devices than recommended.
- Do not expose the stand to extreme humidity or corrosive conditions.

---

5. Usage Recommendations

- Install the stand on flat and level surfaces to prevent stability issues.
- Avoid moving the stand with the monitor installed, as it may damage the structure or equipment.
- Ensure the monitor cables are organized and do not interfere with the stand's structure.
- When replacing the monitor, carefully follow the installation steps outlined above.

---

6. Included

- Dahua stand.
- Screws and washers required for assembly.
- Quick installation guide.
- Manufacturer's warranty.
