ASF-ESD-DETECT

Static detection module

·Test response time≤1s
·Support RS232 communication interface
·Support test completion voice prompt function
·Using touch test keys, durable
·Using micro current test, the test is stable and accurate
·Support device side and platform side for parameter setting

Product Introduction

ASF-ESD-DETECT As an important part of the electrostatic test gate system, the electrostatic meter is a key device for electrostatic test signal input. It supports touch test keys and feeds back the electrostatic test results to the face gate head to cooperate to realize the gate opening control.

Application scenario

Smart factories, high-precision electronics manufacturing plants and other places.

Technical parameter

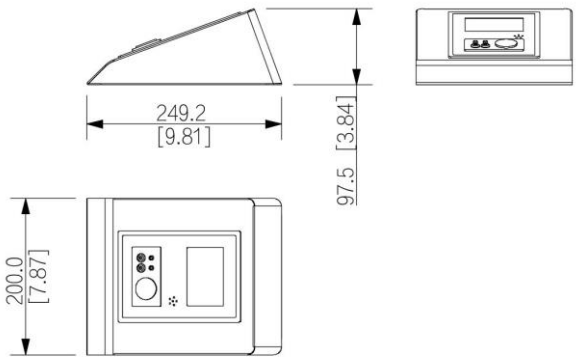
Basic parameters

Product Size	249.2mm*200mm*97.5mm
Cabinet material	SUS304

Other parameters

Machine weight (net weight)	1.59kg
Machine weight (gross weight)	3kg
Power consumption	5w
Working temperature	0℃~55℃
Working environment humidity	20%~70% RH (non-condensing)
Use environment	Indoor

Product Size (mm [inch])



Notice

Type	Model	Description
Static detection module	ASF-ESD-DETECT	ESD detection module-non-ROHS
