DAHUA 3012 - Wall Mounting Bracket

1. INTRODUCTION

Thank you for choosing DAHUA 3012 wall mounting bracket! This mount is designed to facilitate the installation of surveillance cameras on walls, providing a robust and secure solution with a load capacity of up to 30 kg.

2. PRODUCT SPECIFICATIONS

- Model: DAHUA 3012
- Material: Steel
- Load Capacity: Up to 30 kg
- Compatibility: Dahua surveillance cameras
- Dimensions: 520mm × 185mm × 260mm
- Weight: 2.4kg

3. PACKAGE CONTENTS

- 1 x DAHUA 3012 Wall Mounting Bracket
- 4 x Mounting Screws
- 4 x Expansion plugs
- 1 x User Manual

4. INSTALLATION

4.1 Prerequisites

- Tools: Drill, screwdriver, level.
- Suitable mounting surface: solid and stable wall

4.2 Installation Steps

1. Selection of Assembly Location:

- Select a suitable location on the wall that is solid and stable, and allows good camera coverage.

2. Marking of Mounting Holes:

- Place the bracket in the desired position and use a pencil to mark the points where the screw holes will be made.

3. Drilling Holes:

- Use a drill to make holes at the marked points. Make sure the holes are deep enough for the expansion plugs.

4. Insertion of Expansion Plugs:

- Insert the expansion plugs into the drilled holes.

5. Support Fixation:

- Align the bracket with the holes and use the provided screws to secure it firmly in place.

6. Camera Mounting:

- Place the camera on the stand and secure it using the corresponding screws and accessories.

7. Camera Setting:

- Adjust the camera angle and orientation as necessary for the best coverage.

8. Verification:

- Make sure all screws are tight and the bracket and camera are firmly installed.

5. MAINTENANCE

5.1 Regular Verification

- Periodically check the mount and camera to ensure that they are in good condition and securely fastened.

5.2 Cleaning

- Wipe the stand with a damp cloth to keep it free of dust and debris.

6. TROUBLESHOOTING

6.1 Common Problems and Solutions

6.1.1. Support loosens over time:

- Regularly check and tighten the mounting screws.

6.1.2. The camera is not securely secured to the mount:

- Make sure the camera screws are tightened and the mount is installed on a solid surface.
